

Resolved Issues

1. Corrected an issue where clicking Post All from the Enter Completed Work Orders screen would post incomplete jobs when filtering for completed jobs only. (Issue #4490)
2. Increased loading speed of customer's Locations / Jobs tab. (Issue #4471)
3. Corrected an issue where the Smart Wand would not save a newly selected time block when rescheduling the job. (Issue #4430)
4. Resolved an issue where The Enter Completed Work Orders screen would not save corrections to job times. (Issue #4482)
