

Resolved Issues

1. Fixed a memory issue resulting in LogEx errors in various sections of the software. (Issue #5462)
2. Resolved an issue where jobs were able to be posted to QuickBooks after being marked as canceled. (Issue #5248)
3. Revised warning message when attempting to add a record that already exists in QuickBooks. (Issue #5359)
4. Resolved an issue where taxes with 3 significant figures after the decimal would be rounded up. (Issue #5396)
5. Corrected an issue where purchase orders created for QuickBooks Desktop Canada would automatically receive a line item for a purchase tax code when receiving an item. (Issue #5410)
