Resolved Issues

1. Resolved an issue when opening a customer from the scheduler to view the History/Docs tab. (Issue #6163)

2. Smart Service will now email all "Quick Message Fields" regardless of special characters. (Issue #6149)

3. Reactivating a job from the scheduling tab will make the "Complete" button visible. (Issue #6148)

4. Service Agreement bill amounts will now automatically update when items are added, removed, or the billing period is changed. (Issue #6146)

5. The "post work orders" screen will now hide the radio button to "include inactive jobs" until the page is loaded properly. (Issue #6098)

6. Service Agreements will now properly add group items. (Issue #6094)

7. Service Agreement will properly delete line items. (Issue #6093)

8. Smart Service will now show all information correct on the scheduling for large amounts of jobs/employees. (Issue #6089)

9. Users with "Read Only" permissions can properly open Customer/Job records to view. (Issue #6070)

10. Adding/Editing times will work properly in all areas of Smart Service. (Issues #6101)
