

Enhancement Requests

1. Added new button to the “Help” button in the Smart Service ribbon that allows the user to submit a support request to the Help Desk. (Issue #7629)

Resolved Issues

1. Resolved an issue with QuickBooks Online integration where the “Send Method” or “To Be Emailed/Printed” options were not properly setting the “Send Later/Print Later” flag in QuickBooks Online. (Issue #7626)
2. Resolved several issues with invoice number generation when using Batch Invoicing and the “Generate Invoice Number” settings, which resulted in inaccurate invoice numbers being generated as invoices were sent to QuickBooks and QuickBooks Online. (Issue #7632)
3. Resolved an issue that resulted in a security prompt when opening Smart Service following being updated to Smart Service version 107. (Issue #7643)
