

Enhancements

1. The option for iFleet users to add customers/locations/jobs via iFleet has been split into individual permissions to allow better individual control. (Enhancement #8122)
2. Added the 'completed date' field as an option for job and job item reports. (Enhancement #7694)
3. Added an option to allow or prevent iFleet users from opening, printing, or emailing the iFleet work order. (Enhancement #8123)
4. Job UDF's can now be marked as required for the Smart Service and/or iFleet. (Enhancement #8142)
5. Added fields for 'Service Item' and 'Payroll Item' to timesheet reports. (Enhancement #8160)
6. Added a new 'Invoice' type report in the reporting section. (Enhancement #8191)

Resolved Issues

1. Updated to QBFC 12 for Smart Service. This and future versions of Smart Service will now use QBFC 12 to connect to QuickBooks. (Issue #7539)
2. For QBO CA customers, changed the default for the 'Amounts Are' tax setting to "Inclusive of Tax". (Issue #7866)
3. Corrected an issue for QBO CA customers where tax preferences were not carried from the customer/location to the job record. (Issue #8114)
4. Resolved an issue where the batch invoice description option for "Scheduled Date – Customer/Location Name – Item Description" would not populate correctly for QBO users. (Issue #7984)
5. Resolved an issue resulting in 'Out of Memory' crashes caused by Microsoft Access. (Issue #8013)
6. Corrected an issue where Smart Service would not display the full class list from QuickBooks for items. (Issue #8130)
7. Fixed an issue where jobs where the 'Add Time Charges' function was used would cause an error when posting to QBO. (Issue #8138)
8. Resolved an issue resulting in a script error when visiting the Knowledge Base in Smart Service. (Issue #8168)
9. Resolved an issue where the user would encounter a 'string too long' error when sending estimates to QuickBooks while the 'Do Not Add Jobs to QuickBooks' setting was activated. (Issue #8174)
10. Fixed an issue where history for batch invoices was duplicated when using the 'Post All' option in the 'Batch Invoices to QuickBooks' screen. (Issue #8190)
11. Corrected an issue where some payments would not appear in the 'Post Payments' screen. (Issue #8209)
