

Enhancement Requests

1. Added option for iFleet users to submit a support request via the menu in iFleet. (Issue #7635)

Resolved Issues

1. Resolved an issue with custom PDF documents using Asset Usage fields in which the field would improperly display a database ID rather than the Asset Name. (Issue #7607)
2. Resolved an issue with custom PDF documents using Service Equipment User Defined Fields not populating the information from the serviced equipment user defined fields. (Issue #7637)
