

Enhancements

1. Created the option to attach photos and documentation to equipment records in the field. Dropbox integration is required to utilize this feature. (Enhancement #6853)
2. Modified default work order to respect new pricing features. (Enhancement #6864)
3. iFleet will not display payment features when “No Pricing” preferences are selected in Smart Service for either work orders or estimates. (Enhancement #6863)
4. Added a field for payment total for use in custom PDF documents. (Enhancement #6857)

Resolved Issues

1. Limited the payment “memo” field to 50 characters to prevent queue errors. (Issue #6845)
