

Resolved Issues

1. Fixed an issue where tax values would not calculate properly. (Issue #5324)
2. Corrected an issue where company contact information would not properly display on the iFleet standard work order. (Issue #5388)
3. Resolved an issue where estimates would display terms and conditions from work orders instead of estimates. (Issue #5451)
4. Corrected an issue where payment items would offset the tax calculation. (Issue #5472)
5. Resolved an issue where rotating the screen while entering data would cause the data to be erased. (Issue #5323)
6. Fixed an issue where the option to timestamp was visible when viewing job notes from the office. (Issue #5065)
7. Corrected an issue where additional employees did not have the “advance to next job” option in addition to the “Finalize” option. (Issue #5445)
