

Enhancements

1. Added the ability to make Job User-Defined Fields required for iFleet users. This can be enabled in settings by checking the "required" box (Enhancement #2843)
2. Added the option to see a job's city, state, and zip to the "Jobs to Do" list. (Enhancement #7868)
3. Added a separator between dates for easier navigation of the jobs list. (Enhancement #7906)
4. Optimized syncing process and added permission checks (Enhancement #8037)
5. Added the ability to receive a purchase order without a bill. (Enhancement #8073)
6. Jobs created in iFleet can now store multiple email addresses. (Enhancement #8121)

Resolved Issues

1. Fixed indentation of Location records (Issue #7918)
