

Enhancements

1. Added the ability to select 'Class' when creating a job. (Enhancement #8132)
2. Added the ability to collect a payment and mark it as a deposit in iFleet. Payments marked as a deposit are now included in the payment total. (Enhancement #8328)

Resolved Issues

1. Resolved an issue where serviced activity on equipment would not update the equipment last service date. (Issue #7867)
2. Corrected an issue where multiple photos taken at the same time would not successfully save to iFleet. (Issue #8217)
3. Fixed an issue where the iFleet "pay now" button wasn't calculating tax. (Issue #8255)
4. Updated Dropbox integration feature to comply with Dropbox's latest release. (Issue #8312)
5. Resolved an issue where forms would crash when locking the device while the user is editing the form in iFleet. (Issue #8319)
6. Fixed an issue where items with a 0 quantity could be saved. (Issue #8352)
7. Viewing logs is now compatible with dark mode. (Issue #8342)
