Enhancements

1. Created the option to attach photos and documentation to equipment records in the field. Dropbox integration is required to utilize this feature. (Enhancement #6854)
2. Modified default work order to respect new pricing features. (Enhancement #6865)
3. iFleet will not display payment features when "No Pricing" preferences are selected in Smart Service for either work orders or estimates. (Enhancement #6851)
4. Added a field for payment total for use in custom PDF documents. (Enhancement #6856)

Resolved Issues

1. Corrected an issue where summoning the keyboard while entering notes hid the timestamp option. (Issue #6809)
2. Limited the payment "memo" field to 50 characters to prevent queue errors. (Issue #6846)
3. Resolved issues with iFleet's camera feature distorting images to fit the picture space. (Issue #6796)
