

Resolved Issues

1. Corrected an issue where the demo form would remain on the device after iFleet has been set up. (Issue #5363)
2. Fixed an issue where tax values would not calculate properly. (Issue #5324)
3. Resolved an issue where GPS coordinates could not be substituted for a service address when getting driving directions. (Issue #5366)
4. Fixed an issue where iOS phones would truncate customer and job information. (Issue #5434)
5. Resolved an issue where iPhone 7's would have a distorted display when rotated to landscape orientation. (Issue #5436)
6. Corrected an issue where payment items would offset the tax calculation. (Issue #5473)
