Enhancements

1. Added the job type and job description as visible fields to the job summary when looking at "To Do" and "Completed" on iFleet. (Enhancement #9382)

Resolved Issues

1. Fixed an issue where users were able to use voice dictation to enter text data into the quantity field of an item, thus causing a queue error. (Issue #9385)

2. Resolved an issue where the field 'ifleetJobTotal' would not take customer payments on the job into account when displaying the total. (Issue #9404)
