Resolved Issues

1. Resolved an issue where the contract and bill amounts for service agreements would not update when saved. (Issue #8580)
2. Fixed an issue resulting in a 2030 error when saving a purchase order for QuickBooks Online users. (Issue #8589)
3. Corrected an issue where the QuickBooks Online Authorization Token was expiring prematurely, resulting in a reauthorization being required. (Issue #8595)
4. Resolved an issue where serviced equipment was being duplicated on custom forms. (Issue #8596)
5. Fixed an issue where job instructions over 65,535 characters would not load in a timely manner. (Issue #8600)
6. Corrected an issue where group items on jobs would cause an error when posting if advanced inventory was enabled. (Issue #8604)
7. Resolved an issue where jobs created from iFleet which were posted to QuickBooks with a payment would result in a 'String Too Long' error. (Issue #8609)
