

## Resolved Issues

1. Corrected an issue where the statement amount was showing as \$0.00 regardless of the amount due. (Issue #8904)
2. Resolved an issue where, if enabled, the account balance on the work order would display incorrectly when printing the work order from history records. (Issue #8906)
3. Fixed an issue where Smart Service would print blank statements if there was no data available for that customer. (Issue #8910)
